## CAR PARKING IN BELFAST

Roads Service is responsible for many of the public car parks in Belfast. The charged off-street car parks are managed for Roads Service by a private contractor.

Roads Service also provides charged on-street car parking in the city centre.

The operation of tariffs for on-street parking and off-street car parks in the city centre maximises the vehicle turnover. This system of parking control assists with traffic management and helps to contribute to improving the vitality and viability of the city centre by keeping the most convenient parking spaces available for shoppers and visitors by use of competitive parking tariffs. Long term parkers are encouraged to use an alternative form of transport or car parking areas away from the city centre.

Roads Service also operate two park and ride car parks at Northside and Eastside.

## PARKING TIPS

- 1 On-street parking restrictions are designed to assist traffic flow and improve safety. It is a traffic offence to disobey these restrictions.
- 2 It is generally illegal to park within 15 metres of a junction even if there are no double yellow lines.
- 3 When using public car parks or on-street parking spaces always park in the designated parking bays.
- 4 Leave "disabled" parking bays for people with disabilities.
- 5 Avoid leaving items of value in a parked car.
- 6 Show consideration, do not park your vehicle in a way which would inconvenience other road users or pedestrians.
- 7 Don't park on an urban clearway during the hours of operation.
